

KRIBS

BIONEST

Empowering Startups in Biotechnology Innovation

Welcome to

KRIBS BIONEST

A dynamic biotechnology incubator jointly managed by the Rajiv Gandhi Centre for Biotechnology (RGCB) and Kerala Start up Mission (KSUM). Our mission is to assist startups in validating their ideas, accelerating development, and turning innovative technologies into successful commercial ventures. Located in the heart of Kerala's commercial capital, Kochi, KRIBS BioNest offers a unique facility designed to support researchers, investors, and entrepreneurs in the biotechnology and medical fields.

RGCB is a top national R&D institution specializing in biotechnology, with extensive experience in discovery and innovation.

The Kerala Start-up Mission is a dedicated entity of the Government of Kerala, offering a springboard for aspiring entrepreneurs in technology-based businesses.

Together, these two powerhouses provide crucial technical and administrative support, guiding biotechnology entrepreneurs toward success.

INCUBATION MODES

KRIBS BioNest provides the following three modes of incubation support for entrepreneurs and innovators. Additionally, the co-development mode offers scientific mentoring and technical support for young innovators needing help to test and validate their hypotheses.

● PRE-INCUBATION MODE

- Sitting space and access to Central Instrumentation Facility and mentoring support for idea validation
- Potential for full incubation support upon successful validation

● PHYSICAL INCUBATION MODE

- Offers built-up space for startups with monthly fee
- Includes access to Central Instrumentation Facility

● VIRTUAL INCUBATION MODE

- Accessible to entrepreneurs wanting to use Central Instrumentation Facility and other resources
- No need to occupy physical space

FACILITIES AND SERVICES

GENOMICS

PROTEOMICS

MOLECULAR BIOLOGY
